**PRO AGRO GLOBAL,
P.O.Box 10414 Arusha Tanzania.TFA Complex,
Sokoine Road Block No 4o WW,
www.proagroglobal.co.tz**

OUR MISSION

To provide value for money products with technical and dedicated services to allow cost saving and competitive advantage to our clients

OUR VISION

To become the world-class supplier of products, facilities as well as technical solutions provider in East Africa, facilitating growth of modern agriculture

OUR GOAL

To ensure the benefit of the client`s investment providing ideal business without unnecessary complexities and strive to understand the needs and expectations of our clients

WHY CHOOSE US

- ◆ **Technical team of proficient individuals with technical skills, devotion and extended experience**
- ◆ **High-end modern agriculture products and facilities. We are obsessed with the quality and durability**
- ◆ **Cost effective technical solutions for the benefit of the client`s investment**
- ◆ **Dedicated after-sale services and support to ensure growth of our clients in modern farming**

WHAT WE DO

We provide our services with a genuine intention to suit the needs and demands of our clients always striving to exceed their expectations. We have made it our life experience to target on modernizing the agriculture practices by ensuring the availability of modern agriculture products, facilities and technology.

SUPPLY AND INSTALLATION OF GEOMEMBRANE MATERIALS

Geomembranes/liners are becoming of high demand particularly for water reservoirs in irrigation projects as well as ponds in fish farming projects. We work with Geomembrane materials such as HDPE lining materials, GCL Bentoliner, Geotextile e.t.c to ensure both quality and durability for our customers` satisfaction. Our well-versed expertise in installation of geomembranes/liners has been gathered through working at the mining sites, big irrigation projects as well as big fish farming projects

MINING CONSTRUCTION AND SERVICES

PAGS prides itself in installation of liners on major mining sites, repairing services and other construction services at mining sites.

SUPPLY, DESIGN & INSTALLATION OF CENTER PIVOT SYSTEM

We also expertise in the supply, design and installation of center pivot system which is a system that can easily manage water levels in the soil due to the semi-automatic operation of center pivots and its lateral moves. Water application efficiency ranges up to 80%, depending on management and designed installation in the field.

IRRIGATION SYSTEMS

Our expertise and experience in modern irrigation covers both supply and installations of irrigation systems and facilities to SME`s, large corporates and organizations as well. We are focused to be dynamic in this field therefore are fully engaged supply of products as well as installation of drip irrigation systems sprinkler irrigation as well as center-pivot irrigation systems.

SUPPLY, DESIGN & INSTALLATION OF GREENHOUSE

Providing high-end facilities and products for greenhouses and screenhouses of both galvanized and wooden frames. Our obsession is on the quality and durability of our materials of these facilities. The demand for greenhouses is constantly rising due to the fact that the varying climatic conditions is no longer favoring traditional agriculture practices therefore we are firmly holding into supplying of best quality greenhouse materials as well as construction of durable greenhouse facilities

FISH FARMING PROJECTS

As fish farming is becoming highly evolving part of modern farming and as the demand is exponentially gaining the momentum to the epic we have made it our business goal to provide fish farming services and products to ensure the a dynamic evolution of modern fishing projects. Our services extend from construction of fish ponds using geomembrane materials supply of fish fingerlings, supply of fish foods as well as consultancy service for fish farming projects.

OUR SERVICES FOR FISH FARMING PROJECTS ARE

- Construction of fish ponds
- Supply of fingerlings
- Supply of fish feeds
- Supply of pond management products
- Consultancy service in fish farming

OTHER SERVICES

SUPPLY OF WATER TANKS

By partnering with major manufacturers of water storage tanks for the sake of allowing our modern agriculture clients to be flexible with their budgets and preferences, we also deal with the supply of water tanks for various purposes, irrigation being one of them.

We supply a variety of sizes and capacities to suit a wide range of uses for our customers. We are obsessed with the quality and durability of these products; therefore, we make sure that our clients get the best out of their investment.

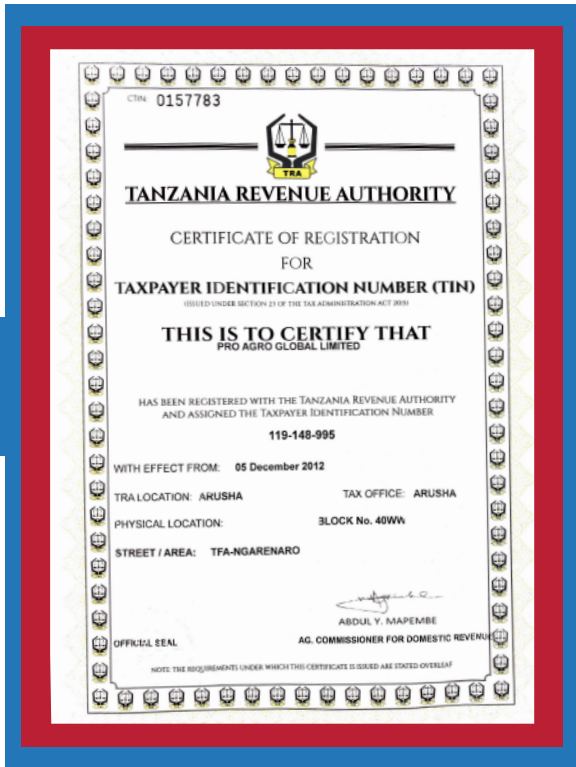

WATER DRILLING

With our vast experience in a wide range of large irrigation schemes, we noticed the challenges facing some of our clients in getting water for their farming projects. We made it an opportunity to provide water drilling services to our clients to solve the problem of water inadequacy for their farming projects.

Our company is now deeply invested in water drilling projects by focusing on evolving our technology in drilling with machinery and technical staffs to gain an intimate understanding of our clients' needs.
